

✔ Key Features and Functionalities of the HouseHunt Project

The **HouseHunt** app integrates core features designed to make renting properties easy, secure, and efficient for all users—**Renters, Owners, and Admins**. Below are the highlighted key functionalities:

User Type	Feature	Description
Renter	Browse & Search	View and filter rental listings
	Inquiry & Booking	Express interest and book properties
	Messaging	Communicate with property owners
Owner	Add/Edit Properties	Manage property listings
	Approve Renters	Respond to booking requests
Admin	Approve Owners	Verify and manage owner accounts
	Monitor Activities	Ensure safe platform usage
